

McLane Advanced Technologies Awarded U.S. Army ITES-3S Contract

December 7, 2018 10:32 AM EST

McLean, Va.—(BUSINESS WIRE) —McLane Advanced Technologies, LLC (MAT), a leading provider of Logistics and Information Technology services to the Department of Defense, Federal government and the private sector announced today it was awarded a prime contract under the U. S. Army’s Information Technology Enterprise Solutions 3 Services (ITES-3S) program. Awarded by the Army’s Computer Hardware, Enterprise Software and Solutions (CHESS) organization and the Army Contracting Command - Rock Island (ACC-RI), ITES-3S is a general purpose IT contract for the procurement of enterprise software solutions and services for the U.S. Army and other Department of Defense (DoD) agencies.

The Army made 135 total awards with 50 going to Large Businesses for full and open competition, and 85 going to small businesses for set-aside contracts. ITES-3S is a 9-year, \$12.1 billion IDIQ Contract that provides enterprise IT for the Army, all other military services, and DoD and Federal agencies around the globe. The scope of ITES-3S includes Cybersecurity Services; IT Services; Enterprise Design, Integration, and Consolidation; Network/Systems Operation and Maintenance; Telecommunications/Systems Operation and Maintenance; Business Process Reengineering; IT Supply Chain Management; and IT Education and Training.

“We are thrilled with this award as it underscores our continuing commitment and partnership with the U.S. Army. This is an important win for both MAT and our team members and a reflection of the hard work that we’ve delivered to the Army, DoD and Federal agencies for the last 15 years. We are excited to have the opportunity to continue serving our nation by providing leading edge, state-of-the-art, sustainable, supportable, and interoperable IT solutions” said Tim Kleppinger, General Manager of McLane Advanced Technologies.
